

FOR VOLLEYBALL ORGANIZERS · BUILT IN TORONTO

Run your league or tournament like it runs itself.

Auto-scheduling, real standings, live scores, and public pages your players actually love — without the spreadsheet, the group chat, and the day-of chaos. Free to set up. Pay only when you go live.

See pricing

What it does

Free for organizers to build & preview. No platform fee on your money. Players never pay to view.

THE SATURDAY-MORNING SCRAMBLE

You didn't sign up to be a spreadsheet operator.

Most Toronto organizers are stitching a competition together out of five tools that don't talk to each other — and hand-fixing standings between games while forty people ask you what court they're on. mysportsapp replaces the whole pile.

~~Google Sheets~~ standings

~~WhatsApp~~ "what court?"

~~Hand-drawn~~ brackets

Manual tiebreakers

Texting schedule changes

~~"Who refs next?"~~

~~Paper scoresheets~~

WHY SWITCH

Everything a spreadsheet can't do.

What running an event needs	mysportsapp	Excel / WhatsApp
Build the whole schedule	Auto — round-robin, pools & brackets in one click	Hours by hand, every season
Standings & tiebreakers	Live & correct — full OVA hierarchy, tap to see the math	Manual, and usually wrong on ties
Referee assignments	Balanced automatically , shown on every card	"Whoever's free," argued on the day
Score entry	From any phone — captains submit, opponent confirms	One person, one laptop, all day
Players find their next game	Own page — court, time, opponent, ref, rest breaks	They ask you. Repeatedly.
Schedule changes	Edit once , everyone sees it instantly	Retype, re-send, hope they saw it

What running an event needs	mysportsapp	Excel / WhatsApp
Looks like your event	Clean public page , no login to view	A shared link to a grid

BUILT FOR THE SPORT, NOT “EVENTS”

Volleyball-native, from pools to point ratio.

Indoor 6s, beach 2s, and co-ed 4s — with the real formats, the real language, and the details that only matter if you’ve actually run a Saturday.

One-click scheduling

Round-robin leagues (circle method), snake-drafted tournament pools, and single-elim brackets — generated, court-balanced, and time-capped for you. Re-time a day and everything re-spaces.

Standings that don’t cheat

The full OVA tiebreaker hierarchy — match wins, head-to-head, set ratio, point ratio — recomputed live. Tap any position to see exactly which step broke the tie.

Live on game day

A “Now playing” board shows the current game on every court, and advances the moment a score goes in. Captains enter set scores from their phone; the opponent confirms.

Every player's own day

A personal Play / Ref / Off strip so anyone can see when they play, when they referee, and when they get a “Hydrate/Rest” break — no more crowding the printout.

Pools, brackets & more

Championship + consolation tracks, auto-seeded from pool finish, plus King-of-the-Court formats. Drop-a-game handling when a pool runs short — done right, per team.

A public page players love

Pools, schedule, brackets and teams on one clean, mobile-first link — no login to view. Players bookmark their team and land on their schedule in a tap.

Reminders on autopilot

Weekly “your matches this week,” confirm-your-score nudges, and schedule-change notices go out for you — so you stop being the group chat.

Works on any phone

Installable, fast, and readable in the sun. Light, airy, and tuned for a 375px screen because that's where your players actually are.

Your money stays yours

We don't sit between you and your players' payments and we don't take a cut of registrations. You keep e-transfers exactly the way you run them today.

SET UP IN AN EVENING

From empty page to public link in four steps.

1

Create it

Pick league or tournament, choose your sport and format, set dates, venue and courts.

3

Generate

One click builds pools, the schedule, referees and — after pools — the bracket.

2

Add teams

Add them yourself or open a public registration link. Captains claim their roster by email.

4

Publish

Share the link. Scores roll in, standings settle themselves, the bracket fills out live.

FREEMIUM — START FREE, PAY WHEN IT'S REAL

Simple pricing that scales with your event.

Set up, schedule, and preview everything for free. When you publish a live event, it's a flat rate per team — and the bigger your event, the less each team costs.

Free

\$0

Forever, to build.

- ✓ Create leagues & tournaments
- ✓ Full auto-scheduling & seeding preview
- ✓ Public page & standings preview
- ✓ Run one small event free (up to 6 teams)
- ✓ Unlimited spectators, always

Season / Tournament pass

\$5–\$15 / team, per season or tournament

One flat charge to publish and run it, live. Bigger events pay less per team.

EVENT SIZE	PER TEAM	TYPICAL EXAMPLE
Small · up to 8 teams	\$15	6-team beach 2s → \$90
Medium · 9–24 teams	\$10	16-team co-ed 4s → \$160
Large · 25+ teams	\$5	32-team indoor 6s → \$160

- ✓ Everything in Free, unlocked and published
- ✓ Live scores, brackets, referee assignments
- ✓ Automatic email reminders to your players
- ✓ No per-registration fee. No cut of your payments.

That's roughly the price of one coffee per team for a whole season — and less than the hours you'd spend rebuilding a spreadsheet. Pay per event; nothing recurring.

*“I set up my whole Saturday
tournament in one evening — and
spent the day actually playing.”*

— A TORONTO ORGANIZER, THE WAY IT SHOULD FEEL

Give your players the tournament they deserve.

Free to build, quick to launch, and priced so any event can afford it. Start your league or tournament today.
